Spring in to GLOWING SKIN

with IPL Treatments

What is IPL?

Photorejuvenation for the repair of age and sun-related damage to the skin, especially on the face, neck, chest and hands. This includes age and sun spots, broken capillaries (spider veins,) redness or flushing (rosacea,) increased pore size and uneven skin texture. Photorejuvenation can restore a youthful and healthy appearance to the skin

Permanent hair reduction can also be accomplished with IPL treatments. Often, any hair that does remain is finer and lighter in color than the original hair.

SUPPORTING ALASKAN FAMILIES IMPACTED BY CHILDHOOD CANCER**

Katie's Handprint is an Alaskan organization who is helping Alaskan families. We recognize that the fight against childhood cancer is a challenge that the whole family goes through together, and we want to support families currently in that chapter of their lives.

Seeking medical treatment in Alaska adds additional challenges: traveling for treatments, or even relocating whole families into Anchorage or beyond. Katie's Handprint seeks to ease the burden of these additional finances so you can focus more on what is most important - your family.
